## PROFESSIONAL EXPERIENCE

<b>Broadcast Operations Executive</b> <i>Planetcast Media Services Limited</i>	06/2022 – present Mumbai, India
---	------------------------------------

### Fancode Department

#### **Shift In-charge, Broadcast Operations**

- Led a team as the shift in-charge, overseeing the live streaming operations for Fancode.
- Coordinated and managed live streaming of various high-profile sports events, ensuring seamless broadcast.
- Received and processed feed from venues using Planetcast Media Operation Software, Encaster, and Recaster.
- Created and managed streams on AWS Elemental, updating push points and ensuring proper feed patching.
- Monitored live matches on the Fancode application, ensuring smooth and uninterrupted streaming.
- Published advertisements using the SCTE application Graphics Plus and managed graphics using the Graphics X application.
- Coordinated with clients and venue personnel to ensure flawless operations.
- Successfully handled major sports events such as the India Tour of West Indies 2022, Khelo India 2022 and 2023, U19 Women's World Cup 2023, FIH Hockey World Cup 2023, Volleyball Nations League, PGA, and SAFF Championship.
- Resolved technical queries related to live streaming and broadcasting, ensuring minimal downtime.

### **Cricbuzz Department**

#### **Broadcast Operations Specialist**

Managed the live streaming operations for high-profile cricket tournaments including the Women's Premier League (WPL) and the Indian Premier League (IPL) 2023.

- Developed and managed playlists for live matches, ensuring they included all necessary elements such as slates, commercials, live commands, and highlights using Cloud X Playlist.
- Created and implemented break patterns ahead of time, adhering to scheduled break timings to ensure a smooth viewer experience.
- Monitored live streams and made real-time decisions to switch between live commands and breaks as per the director's instructions.

- Maintained a backup playlist to ensure seamless transitions and continuity in case of technical issues or emergencies.
- Coordinated the switching between venue feed and studio feed as needed, ensuring a professional and uninterrupted broadcast.
- Worked closely with the production and engineering teams to troubleshoot and resolve any technical issues promptly.
- Enhanced viewer engagement by ensuring high-quality and uninterrupted live streaming of matches, contributing to the overall success of the Cricbuzz OTT application.

**SONY LIV Department**  
**Broadcast Operations Assistant**

- Monitored and controlled programming transmission to ensure correct content airing at designated times.
- Built and operated daily playlists using ADC - Air Client, ensuring high technical quality and resolving issues.
- Collaborated with the engineering department to troubleshoot and fix technical problems, maintaining compliance with regulatory standards.

**Linear Broadcasting**

- Working on cloud-based Viacom International Payout as a Broadcasting Operations Executive.
- Utilized Planetcast Media Operation Software (Cloud X MAM, Media X, GFX Tool, GFX-2, Subtitle Converter).
- Scheduled playlists and managed overall broadcast on-air content for International Colors Viacom 18 Channels.
- Coordinated with the scheduling team to manage and set the playlist on a daily basis.
- Ensured all prime-time content, such as commercials, promos, movies, and graphics, were previewed and aired smoothly. Also, cross-previewed all content before on-air time.
- Handled RSWS (Road Safety World Series) 2022 live matches.
- Resolved technical queries related to channels satisfactorily.
- Monitored all channels sharply.

**SKILLS**
